

In response to the ongoing Coronavirus (COVID-19) situation, the Borough of Stroudsburg **Building and Codes Enforcement Departments** will be instituting certain precautionary measures for the health and safety of our citizens and our employees. We will have limited staff on-site during this time. The public will have no access to the Borough offices for the immediate future. Please contact our staff via email or phone with any questions.

Building Permits: We request that all permit applications be submitted in digital format. Please contact our office via email to make specific arrangements if this is not possible. Payments can be made by check or money order. Please place your payment in an envelope with the property / project address and property owner name listed clearly and place the envelope in the Ticket Drop Box at the curb adjacent to the municipal building on North Seventh Street.

Inspections: Building inspections will be handled on an individual basis. Please email RKimes@StroudsburgBoro.com to schedule all residential inspections. All commercial inspections will be done by Barry Isett & Associates. Their contact information is listed on your commercial building permit.

Health Licenses: All health license applications should be submitted by mail to our office with all required documents and payment by check or money order.

All Emergency issues should be directed to 9-1-1.

Obviously, this is an ever-changing situation. We will update our policies and procedures accordingly.

Thank you for your understanding and cooperation in this serious matter.
